- We can mark relationship between the family background of the child and the chance of getting abused, poor orphaned, discriminated children, Children who are victims of alcoholic parents, Child whose parents are separated or divorced are more vulnerable
- In almost all the cases parents know the abuser and has relationship which gives space for the abuser to abuse the child.
- The decreasing number of sexual abuse cases against children in Trivandrum district shows the awareness that is created by CHILDLINE and Government are reaching the public.
- Child Labour and Child Beggary cases are also decreasing in the district of Trivandrum.
